

The right to a world class education is the birth right of EVERY child. TGES Mission Statement

9 May 2019

Dear SNK parents,

This brief circular about school and unit locations precedes a more detailed one that will soon follow. The next circular will carry full details about school schedules and other information regarding the coming academic year 2019-20. Please do not make Transport arrangements till you have all the information.

Please note the following :

SCHOOL and UNIT LOCATIONS 2019-20

SNK PREPRIMARY 2019-20

PreK : All SNK PreK will be at Savani

K1 : All SNK K1 will be at SNK Juniors

K2 : All SNK K2 will be at SNK Juniors

- Preprimary locations are based on the most developmentally appropriate locations for each group of children.
- Each unit at a single location will permit more effective supervision and use of human and material resources. This is a critical need for the coming year. See the note regarding Best Teachers below.
- PreK at Savani means less travel time for a majority of our youngest students. Please note that transport for PreK is a paid service. PreK students will be at SNK Juniors next year in K1 and they must pay for transport at that time as well. They are not part of the free transport arrangements that we are currently offering K1 and K2 classes of 2019-20.
- K1 and K2 at SNK Juniors are all offered Free School Bus Transport. K2 for 2019-20 only. K1 for 19-20 and 20-21 as long as they are at SNK Juniors.
- There are no preprimary classes at SNKEast or West.

SNK PRIMARY & HIGH SCHOOL

STD 1-6 : SNK WEST

STD 7-12 : SNK EAST

DENSITY AND REIMAGINING SPACE

We are continuing to attempt a reduction in density, ie the total number of students in SNKEast and SNKWest, so that we can add more specialised facilities. With your understanding and support, we will be able to incorporate several much-needed and unique learning spaces over the next few years.

GANTAR & OCCUPATIONAL LEARNING

We have been able to build two small Greenhouses and are now planning an expansion of our Guidance & Counselling Centre and TGES Multimedia Studios. Additionally, as we seek to add daily Yoga for all students, we are creating spaces for Wellness & Mindfulness. Also likely in the coming year, space for Food Science to teach culinary arts and nutrition.

BEST TEACHERS REACH EVERY STUDENT : HYBRID SCHEDULES

School schedules are being crafted, and spaces and locations assigned, so as to take maximum advantage of all resources. One of the major targets this year is to leverage and organise the time of our best teachers so that the most effective teaching reaches EVERY student. This will mean rethinking how and when we schedule learning time. Not to think of absolutes, that is either this or that. But to discover optimum hybrid solutions. Please await more details in the next circular.

Again, thank you for your support. Without your understanding, we would not be able to do all that we do in making SNK an outstanding place of learning.

Yours sincerely,

Kiran Bhalodia
TGES Director
On behalf of Trustees
